

## Between Windtree Drive and Kell Road

This trail is a loop, 1.5 miles in length, with connecting trails to Conner Creek Drive at the northern end and Walking Stick Rd. at the southern end, each connecting trail being about 250 yards long. The trail passes through some very pretty woodland, and alongside Conner Creek, which in places is beautiful (bring a picnic!). The land is higher at the northern end, and there are some fairly steep slopes. The trails are moderately easy to follow, but in some places there are ankle-twisting rocks, and at one point on the western side the trail runs along a stream bed, which may be wet. There are also fallen trees across the trail in several places. The whole of the trail is on privately owned land.

**Directions:** From the stop light at the top of the mountain, continue along the main road, past Lynn's Market and the water towers. At Signal Mountain United Methodist Church, fork left onto one of many unconnected segments of Anderson Pike. For the **southern** end of the trail, turn left onto Shackleford Ridge Road, second right onto Windtree Drive, and second left onto Walking Stick Rd. The trail starts at the end of the cul-de-sac. For the **northern** end of the trail, keep on Anderson Pike a little further, turn left on Kell Road, and left again on Conner Creek Drive. The trail starts on the right, just after the road crosses a stream.

### Coordinates:

End of trail at Walking Stick Rd. N35° 10.44' W85° 20.47'

End of trail at Conner Creek Dr. N35° 10.67' W85° 20.90'
