

Green Gorge Trail – Signal Mountain

Description: This small park, in which a stream runs through a gorge, contains nearly 2 miles of trails. Although completely surrounded by houses, the depth of the gorge keeps the park extremely peaceful. The "trailheads" are not very obvious - they are merely places where the trails reach the surrounding streets.

Directions: from the traffic lights at the top of the mountain, turn east on Palisades Drive, then north on Green Gorge Road. The trailhead is on the left, just around the corner.
